Professional Summary

Computer Engineering student with a strong interest in data science, machine learning, and low-resource language processing. Experienced in data analysis, SQL, and visualisation, with hands-on project work in AI applications. A fast learner with a passion for building practical and impactful technology solutions.

Technical Skills

- **Programming:** JavaScript, Python
- **Web Development:** MERN Stack (MongoDB, Express, React, Node.js)
- **Data & AI:** Data Analysis, Data Visualization, NLP
- **Database:** SQL, MongoDB

Projects

Aura Match (AI-Based Recommendation System)

- Developed an AI-powered application that analyzes facial features using CNN and transfer learning.
- Built a recommendation system and backend for hairstyles, beard styles, and glasses.

Nepali Tokenizer Dataset Project

Hugging Face

- Collected and processed Nepali text datasets for NLP tasks in low-resource language settings.
- Performed data preprocessing, normalization, and structuring for transformer-based models.
- Released a curated Nepali news dataset on Hugging Face.

Education

Bachelor in Computer Engineering

IOE, Purwanchal Campus, Dharan

Present

Training & Certifications

- Associate Data Engineer in SQL – DataCamp (2026)
- NAAMI / ANAIS Training Program (2025)
- Machine Learning Specialization – Coursera
- Certificate of Participation – ACES Hackathon 2022, Dharan
- Certificate of Participation – NAAMI / ANAIS 2025, Kathmandu

Experience & Leadership

- **Event Organizer, Internfest (ACES Techfest):** Managed event logistics to connect students for internship placements.
- **Hackathon Technical Mentor:** Guided participating teams in software architecture, rapid prototyping, and debugging.
- **Bootcamp Mentor (C, C++, React, Node.js):** Mentored students through code reviews and building full-stack web applications from scratch.
